## SUMMARY

Computer Science student at Tanta University with a growing expertise in Full Stack Web Development and Data Science. Passionate about building end-to-end digital solutions — from responsive, database-driven web applications to insightful data dashboards and machine learning pipelines. Combines strong technical skills in Python, PHP, React, and Power BI with a keen eye for clean user experience and meaningful data storytelling.

## EXPERIENCE & TRAINING

### Data Engineering Trainee

Jul 2026 – Present

*Digital Egypt Pioneers Initiative (DEPI)*

- Learning Python for data engineering, including Pandas, NumPy, Matplotlib, and Seaborn for data manipulation and visualization.
- Studying advanced data structures and algorithms to strengthen problem-solving and coding efficiency.

### Web Development Using React JS — Summer Training

Jul – Aug 2026

*Information Technology Institute (ITI)*

- Learned HTML, CSS, JavaScript, and advanced JavaScript concepts.
- Learned React.js for building modern, component-based single-page applications.
- Explored Generative AI concepts and their integration within web applications.

### Full Stack Web Development

Nov 2025

*Createivo — Certificate Earned*

- Built responsive web applications using HTML, CSS, Bootstrap, JavaScript, PHP, and MySQL.
- Developed full-stack projects with authentication systems, dashboards, and database integration.

### Data Analysis & Visualization Using Microsoft Power BI

Jun 2025

*Computer Consulting Center — Faculty of Computers and Information*

- Created interactive dashboards and reports using Power BI and DAX.
- Analyzed datasets and transformed raw data into meaningful business insights.

### Advanced Python for Data Science & Machine Learning

Feb 2025

*Computer Consulting Center — Faculty of Computers and Information*

- Worked with Python libraries such as NumPy, Pandas, Seaborn, and Matplotlib for data analysis and visualization.
- Applied machine learning concepts and data preprocessing techniques on real datasets.

## EDUCATION

### Bachelor of Science — Computer Science

Expected 2028

*Faculty of Computers and Information — Tanta University, Egypt*

- GPA: Very Good

## PROJECTS

---

### Movie App (Team Graduation Project — ITI Summer Training) 2026

*React JS • TMDB API • Generative AI*

- Collaborated in a team to build a full-featured movie and TV show browsing application using React and The Movie Database (TMDB) API as the graduation project for ITI Summer Training.
- Owned the media pages: developed the movies list, movie details, search results, and TV shows pages with dynamic API integration and a responsive UI.
- Implemented pagination and dynamic routing for browsing movies and TV shows.

### Dental Clinic Management System 2026

*HTML • CSS • Bootstrap • JavaScript • PHP • MySQL*

- Developed a full-stack web application to manage clinic operations and appointment booking.
- Implemented patient authentication, doctor scheduling, and appointment management features.

### Flower Shop Website 2026

*HTML • CSS • Bootstrap • JavaScript*

- Developed a modern and responsive flower shop website with an elegant user interface.
- Designed multiple sections including home, products, about, and contact pages.
- Focused on responsive design and smooth user experience.

## SKILLS

---

### Data & Programming

- Python for Data Analysis
- NumPy, Pandas, Matplotlib, Seaborn
- Data Structures & Algorithms
- JavaScript
- PHP & MySQL
- Database Management
- Problem Solving
- Excel (Data Cleaning, Analysis, Formulas)

### Tools

- React.js
- Generative AI
- Microsoft Power BI & DAX
- Git & GitHub
- HTML5, CSS3, Bootstrap
- Responsive Web Design

**Languages:** Arabic (Native) | English (Upper-Intermediate / B2) | French (Basic / Elementary)

## SOFT SKILLS

---

Communication Skills • Teamwork & Collaboration • Time Management • Fast Learning • Attention to Detail • Presentation Skills • Creativity • Adaptability • Analytical Thinking & Problem Solving

## CERTIFICATIONS

---

- Full Stack Web Development — Createivo (Certificate Earned)
- Advanced Python for Data Science and Machine Learning — Computer Consulting Center, Faculty of Computers and Information (Certificate Earned)
- Analyzing and Visualizing Data using Microsoft Power BI — Computer Consulting Center, Faculty of Computers and Information (Certificate Earned)

## EXTRACURRICULAR ACTIVITIES

---

- Participant, Problem Solving Workshop (C++) — ICPC Workshop
